East Evelyn Grazing

A picturesque 46.02 ha property located a short distance from Millaa Millaa, North Qld with bitumen road access and several possible house sites, has just hit the market. The property has an abundance of improved pasture, consisting of Setaria, Brachii, Desmodium, Pinto Peanut and Vigna and is relatively weed free.
The block is in a high rainfall area with a spring-fed dam and creek dissecting the farm. Minor sections of the creek are forested to native flora. The property is fully fenced and is in good order. The location of this property on the highly sourced Atherton Tablelands will lend itself to a diverse number of options. As a blank canvas, is a must see for all buyers.
Call our Rural Property Specialist, Scott Hart to arrange an inspection.

FOR SALE - $620,000
