FOR SALE

Land Size / 46602 acres

4 2

Blanncourt Station

Blanncourt Station is a well positioned property with excellent access that is recognised as one of the higher producing and well developed breeding and backgrounding operations in the region.
Strong mix of cleared and farming country along the river frontage, combined with a diverse range of country and soil types across the balance of the property.
Whilst Blanncourt is well improved, there is still scope for future development and value adding by way of increasing the area under Leucaena, establishing additional country to Buffel Grass and the increase in production of silage/hay to expand the backgrounding and finishing of livestock.
• 18,859 Ha or 46,602 Ac
• Located 44 km west of Georgetown with excellent access
• Approximately 1,000 Ha of cleared country including 100 Ha of Leucaena and 40 Ha of established hay paddocks
